1. Web application topic

The topic of the web application is lost and found pets. People can upload pictures and names of pets that they have lost or found on the street. There is going to be an emergency number and generous rewards. The design will be interactive and easy to use. Everyone can create a profile and immediately access the contents of the site. You will be able to create your account in PetBuster. After creating the account you will be able to see recent posts for found and lost pets. There will be a filter for separating the lost from found pets. You will be able to comment posts and create posts as well.

2. Target audience

A lot of people will be interested in PetBuster, because everyone who owns a pet is concerned about the lost animals. So this kind of people want to help the animals to find their owners and PetBuster is the place where you can make a post for the animal and to be easily accessible for the other users in PetBuster. In the web application you will be able to make a post if you have lost your pet as well. The target audience of the web application will be large.

3. Sitemap

Note:

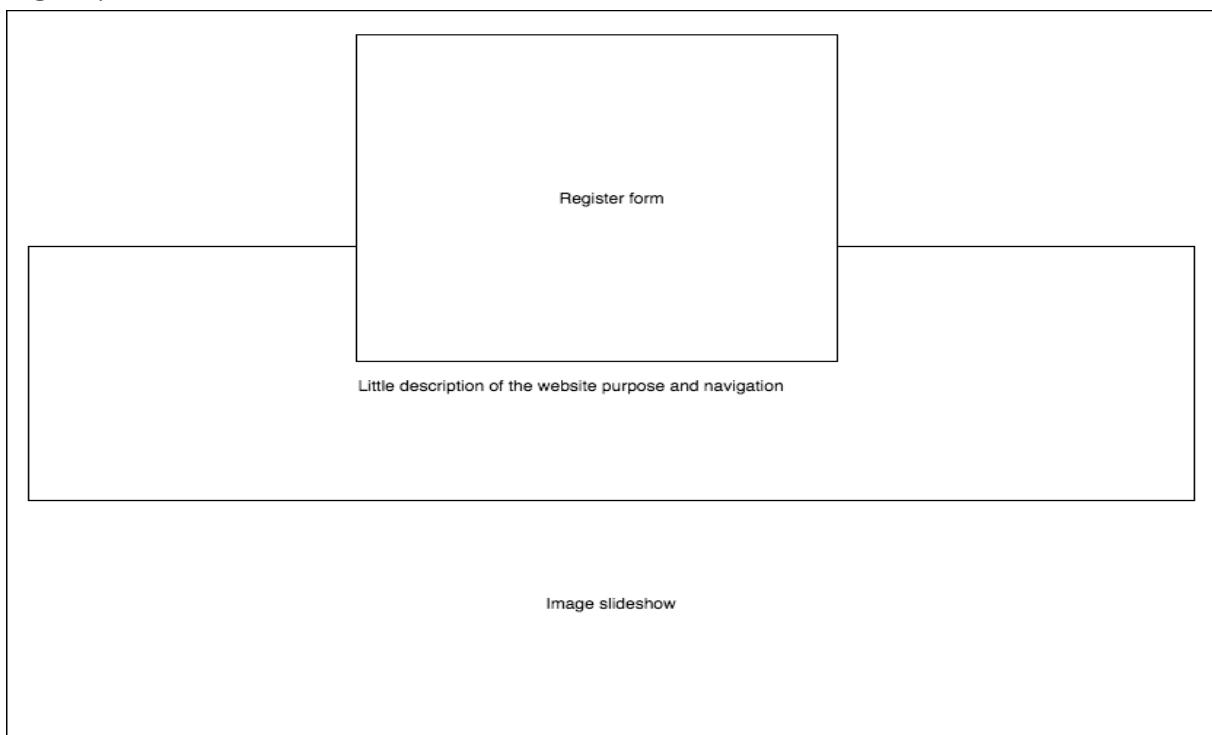

- The sign in, sign up and about page are not different pages. They are popup boxes which can be accessed from the landing page.
- After signing up or signing in the user will be redirected to the main posts page.
- The found and lost pages are not different pages. In the main posts page will be created a filter with which you can filter the posts by selecting category – for lost pets or for found pets.
- By clicking on post, doesn't matter if it is for found or lost pet you will be redirected to page where you can see more details for the post.
- The view profile page will be accessible from the navigation in the main posts page.

User page:

The screenshot shows a user profile page for "User name". At the top left are navigation links: HOME, POSTS (which is highlighted in blue), ABOUT, and CONTACT. In the top right corner is the PetBuster logo, which includes a paw print icon. The main content area features a large, slightly blurred background image of a yellow Labrador puppy's face. Overlaid on this is a white card with rounded corners containing the user's profile information. The card has a header "User name" and a section titled "User info" showing a small circular profile picture of a pug wearing swim trunks. Below this is a section titled "User posts" containing two post entries. Each entry includes a small thumbnail image of a puppy, the post name ("Post name"), and a placeholder for "Post description...". At the bottom right of each post entry is a link "Read more -->".

Create new post page:

The screenshot shows a "Create new post" page. At the top left are navigation links: HOME, POSTS (highlighted in blue), ABOUT, and CONTACT. In the top right corner is the PetBuster logo. The main content area has a large, slightly blurred background image of a yellow Labrador puppy's face. Overlaid on this is a white card with rounded corners for creating a new post. The card has a header "Create new post" and a text input field labeled "Post details form...". At the bottom right of the card is a large, rounded rectangular button with the word "Post" in white text.
